

hotwheels

Summer is a lot more fun with a new set of wheels.

FOR TOWNIE OR COUNTRY

Village Bikes' most popular seller, the Townie™ by Electra, will have you cruising in style. Designed with lower center-of-gravity seating and forward pedaling, this revolutionary bike allows riders to place feet flat on the ground when stopped. It's comfortable, safe and hip. Choose between five models.

Priced from \$340

BAG OF TRICKS

For young daredevils determined to master the ramp—or simply rule the streets—the Specialized Fuse II is the bike to ride. Light and strong, it stands up to abuse by the toughest BMX rider. Try one on for size at Village Bikes, 6279 Lake Osprey Drive in Lakewood Ranch.

Priced from \$270

TOUR DE RANCH

For the avid cyclist, it doesn't get any better than this. Among the lightest and most aerodynamic frames in the world, the Soloist Carbon is the result of several years work and behind-the-scenes development. For months, unmarked "mystery bikes" were spotted at races around the world, causing much speculation until their identity was revealed at the 2005 Tour de France. Available at Village Bikes.
